

Landmark[®]

Designer Roofing Shingles

BEAUTY BOOK

Trust Your Home to Landmark®

Few things in this world are as precious as the place that you call home. It is much more than just a house. It's the foundation from which you build your life. That's why having a roof that gives your home long-lasting curb appeal and protection from the elements is so important. At CertainTeed, our benchmark for success is our customers' total peace of mind. And we wouldn't have it any other way.

Our dedication to making the highest-quality roofing systems continues to earn the respect of top building professionals. And our product portfolio offers the widest variety of design and color options in the industry. It's no wonder that more than a million homeowners across North America choose CertainTeed each year.

And the job doesn't stop once the roof goes on. Every CertainTeed product is backed by our industry-leading manufacturer's warranty, allowing you to rest confidently and comfortably for years to come.

Technology that protects the beauty of your roof and strengthens its performance.

NailTrak[®]

Fast, Accurate, Visible

The new and improved **NailTrak** nailing line, a feature on CertainTeed designer shingles. Now **NailTrak** is brighter than ever before, with high-visibility lines that stand out whether it's daybreak or dusk. **NailTrak** removes the guesswork with three separately defined lines, creating a large area to guide your nailing and a smaller area for extreme steep-slope applications.

QuadraBond[®]

Advanced Layering

CertainTeed's specially formulated adhesive adheres shingle layers at four points, more than any other manufacturer. This superior bond provides greater protection against shingle delamination to maximize performance over the life of the shingle in any climate.

StreakFighter[®]

Algae Resistance

The ultimate in stain protection. Those streaks you see on other roofs in your neighborhood? That's algae, and it's a common eyesore on roofing throughout North America. CertainTeed's **StreakFighter** technology uses the power of science to repel algae before it can take hold and spread. **StreakFighter's** granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

CertaSeal[®]

Uplift Protection

CertaSeal[®] is a fast-activating modified asphalt sealant with a 20-year record of proven performance. Designed to seal shingles together upon installation, it protects roofs from wind uplift and shingle blow-off so that homes stay safe and dry. It's also engineered to remain flexible after installation, unlike harder sealants that can dry out and crack over time.

Insist upon the

Integrity Roof System™

PERFORMANCE ENGINEERED FOR COMPLETE PROTECTION,
STRONG RESILIENCE AND LASTING BEAUTY

A superior roof is stronger than the sum of its parts

Your roof should do more than shield the elements. It should protect your home, and more importantly, everything you care about.

The Integrity Roof System is designed to provide optimum performance, day after day, year after year. It's a full suite of roofing components engineered to complement each other and create an active defense against whatever gets in your home's way.

After all, the Integrity Roof System is backed by the power of CertainTeed – and better-quality components means you've got a roof system built to protect against even the most extreme conditions.

Shadow Ridge

Burnt Sienna

The radiance and rich shadows of this classic earthy color complements the features of most natural landscape. Burnt Sienna pairs perfectly with our premium Ageless Cedar blends and darker hues of Mountain Cedar, Brownstone or Sable Brown.

Cobblestone Gray

A rugged, light to mid-tone warm gray, evoking the natural beauty of a country estate's stone pathways. It blends seamlessly with both traditional and modern designs, and will pair well with both warm and cool palettes, especially lighter neutrals colors such as Sandstone Beige or Herringbone.

Colonial Slate

A refined, medium neutral gray with subtle warm undertones, evoking a sophisticated, timeless and natural allure that will frame any style of home elegantly. The slight warmth to this gray helps it work well with any of the strong warm colors such as Natural Clay and Weathered Blend.

Moiré Black

A refined, dark neutral gray with subtle warm undertones, evoking a sophisticated, timeless and natural allure that will frame any style of home elegantly. The slight warmth to this black helps it work well with any of the strong warm colors such as Natural Clay and Weathered Blend.

Heather Blend

This versatile inviting color features medium browns defined by soft highlights of gray granules. These hues go well with warm grays such as Sparrow, and an array of natural tones – Desert Tan, Savannah Wicker, and Brownstone.

Resawn Shake

The hearty tones of Resawn Shake create the welcoming presence and relaxed vibe of traditional wood shakes. Look for warm natural tones to match, such as our premium Cedar Blend, Savannah Wicker, Sable Brown, and Forest.

Georgetown Gray

A classic, cooler-toned gray with hints of blue and black, offering a rich, historical appeal. This robust gray is the perfect supporting actor that will stand up alongside darker bolder siding colors such as Flagstone or Granite Gray but won't overwhelm more subtle colors such as Sterling Gray or Oxford Blue.

Weathered Wood

A wide range of warm, earthy grays and darker browns add depth and character, evoking the natural patina of aged woods. Owing to the broad range of tones in the granules, it matches up nicely with any of the earthy hues like Natural, Arbor and Driftwood.

Warranty Guide

	SureStart®	 SureStart® PLUS 3-STAR
Eligibility Requirements	No additional requirements. CertainTeed provides this coverage with the purchase of the product.	Installation of CertainTeed Landmark shingles along with all other components of Integrity Roof System
