- Landmark®
- Landmark® Solaris®

When installed as a component of the Integrity Roof System®, your roof is qualified for an **unlimited wind velocity warranty!**

**SEE DETAILS OF WIND
UPGRADE REQUIREMENTS
ON OTHER SIDE**

Product Installation Requirements for Upgrade Eligibility

The Shingles listed on this document are warranted to resist blow-off due to wind velocities, including gusts, up to a maximum of 160 miles per hour during the first fifteen (15) years, provided all of the following conditions are met:

- The CertainTeed shingles are not applied over existing roof shingles (roof-overs are not permitted).
- The CertainTeed specified corresponding hip and ridge accessory products are installed as cap shingles (Shadow Ridge, Cedar Crest®, and Mountain Ridge®).
- The CertainTeed specified corresponding starter shingles are installed along the roof eaves **and** rakes (SwiftStart®, SwiftStart® SA and High-Performance Starter).

(Note: In Florida, CertainTeed will waive the requirement of applying starter shingles along the roof rake if all of the following conditions are met: the shingles are installed and embedded in an 4-inch-wide bed of asphalt roofing cement along the roof rake edges in accordance with the building code.)

See the applicable Asphalt Shingle Residential Products Limited Warranty for additional warranty coverage details.
