OVERVIEW AND FEE SCHEDULE

ASPHALTIC ROOF SYSTEM WARRANTIES

WARRANTY OVERVIEW

CertainTeed LLC ("CertainTeed") offers standard asphaltic membrane roof system warranty durations up to 25 years. CertainTeed offers three warranty options: Asphaltic Membrane Limited Warranty on Materials, Integrity Roof System® Limited Warranty and Integrity Roof System® No Dollar Limit (NDL) Limited Warranty.

WARRANTY DURATIONS & SYSTEM SPECIFICATIONS

CertainTeed Integrity Roof System Limited Warranty durations are based on a combination of system specification and product selection. For example, CertainTeed Specification APP-C-2-T lists multiple base sheet and cap sheet options. Per the specification, all base sheets are fully adhered, either in hot asphalt, torch-welded or self-adhered. Per the APP Warranty Duration Matrix, a pairing of All Weather/Empire Base Sheet with Flintlastic GTA carries a 12-year warranty duration. However, a pairing of Black Diamond Base Sheet with Flintlastic GTA carries a 15-year warranty duration. Both of these configurations are options within APP-C-2-T. Further, the addition of two layers of FlintBoard roof insulation or CertainTeed approved cover board (second layer adhered) to a Black Diamond Base Sheet – Flintlastic GTA roof system increases the warranty duration to 20 years and would now be CertainTeed Specification APP-I-2-T. It's important to understand that each CertainTeed Specification allows for various base, ply and cap sheet configurations and, as such, warranty durations associated with an individual specification will vary.

Lack of regular maintenance shall void this Limited Warranty. For specific information on roof maintenance requirements please visit our website at www.certainteed.com.

UNAPPROVED REPAIRS, ALTERATIONS, ADDITIONS, OR DELETIONS

All repairs, alterations, additions, or deletions to any aspect of the roof, or any material contiguous thereto, must have prior written approval of CT's Warranty Services Department (CertainTeed Commercial Building & Infrastructure, Warranty Services Department, 20 Moores Road, Malvern, PA 19355, (800) 396-8134 ext. 2). If Owner, without prior written consent of CT, makes or permits any repairs, alterations, additions, or deletions to the roof, all of CT's obligations, duties, and coverage under this Limited Warranty will terminate and the Limited Warranty will be voided. Application of a roof membrane that deviates from CT's published specifications and application instructions voids coverage unless prior written approval is provided by CT's Warranty Services Department.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, Owner may make essential temporary repairs performed by a CT credentialed roofer. CT will only reimburse Owner for essential temporary repair expenses that would have been covered under this Limited Warranty.

NOTICE OF CLAIMS

Any claim or request for CT to perform under this Limited Warranty must be made by the Owner to CT in writing to the above listed address, by email to rpg@saint-gobain.com, or by visiting www.ctroof.com within thirty (30) days of discovery of the defect or CT will have no responsibility for repairs. Notification to a roofing contractor is not considered notice to CT. This notice of claim must include a general description of the alleged defect and a copy of your Roof Maintenance Program records. Owner shall grant access to the entire roof system as necessary for CT to investigate a claim, which includes, but is not limited to, the taking of samples that adequately demonstrate the alleged defect for testing by CT as part of the claim investigation. If access is not granted, CT shall have the right to determine, at its sole discretion, that this Limited Warranty is void as to that portion of the roof system to which access is denied. Should the investigation of the leak be determined not to be covered under this Limited Warranty, any costs associated with the leak investigation shall be the Owner's sole responsibility. This Limited Warranty will become void if costs associated with non-warranty findings are not paid in full within thirty (30) days of receipt of any CT invoicing. If it is determined that CT installation procedures have not been followed, or the required materials have not been installed, CT may cancel this Limited Warranty at any time.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, Owner may make essential temporary repairs performed by a CT credentialed roofer. Issuance of this Limited Warranty or review or inspection of plans, the building, or roof system application by a CT representative does not waive any exclusions or conditions of this Limited Warranty.

TRANSFERABILITY OF WARRANTY

This Limited Warranty may be transferred to a subsequent Owner only if CT's Warranty Services Department is notified at the above listed Malvern address within thirty (30) days of real estate title transfer and upon payment of the applicable transfer fee. Failure of the Owner and subsequent Owner to transfer this Limited Warranty pursuant to these stated conditions terminates CT's warranty obligations and the Limited Warranty will be voided. This Limited Warranty is NOT otherwise transferable or assignable by contract or operation of law, either directly or indirectly.

CONDITION PERTAINING TO WARRANTY EFFECTIVENESS

This Limited Warranty applies to roof membranes installed during the calendar year of 2026 and shall become effective following complete installation of the roof membrane and payment in full to the roofing contractor. The warranty in effect at the time the material is originally installed is the applicable warranty. The warranty duration listed above is solely based upon information provided within the Product Registration/Warranty Request Form. Information presented and determined as incomplete or inaccurate, shall result in this warranty being null and void. Should a dispute arise between any of the parties (contractor, Owner, CT) as to whether or not the contractor was paid in full, CT will hold the Limited Warranty in abeyance until such time as the parties agree that this condition has been satisfied. If and when this Limited Warranty becomes effective, the original Roof Completion Date shall apply for all purposes of this Limited Warranty.

UNAPPROVED REPAIRS, ALTERATIONS, ADDITIONS, OR DELETIONS

All repairs, alterations, additions, or deletions to any aspect of the roof, or any material contiguous thereto, must have prior written approval of CT's CB&I Warranty Services Department (CertainTeed Commercial Building & Infrastructure, Warranty Services Department, 20 Moores Road, Malvern, PA 19355, (800) 396-8134). If Owner, without prior written consent of CT, makes or permits any repairs, alterations, additions, or deletions to the Product, all of CT's obligations, duties, and coverage under this Limited Warranty will terminate and the Limited Warranty will be voided. Application of Product that deviates from CT's published specifications and application instructions voids coverage, unless prior written approval is provided by CT's CB&I Warranty Services Department.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, Owner may make essential temporary repairs performed by a CT credentialed roofer. CT will only reimburse Owner for essential temporary repair expenses that would have been covered under this Limited Warranty.

NOTICE OF CLAIMS

Any claim or request for CT to perform under this Limited Warranty must be made by the building owner to CT in writing to the above listed address, by email to rpg@saint-gobain.com, or by visiting <https://www.ctndl.com/resndlsite/Commercal/index.asp> within thirty (30) days of discovery of the defect or CT will have no responsibility for repairs. Notification to a roofing contractor is not considered notice to CT. This notice of claim must include a general description of the alleged defect and a copy of your SMARTCOAT Roof Maintenance Program records. Owner shall grant access to the entire roof system as necessary for CT to investigate a claim, which includes, but is not limited to, the taking of samples that adequately demonstrate the alleged defect for testing by CT as part of the claim investigation. If access is not granted, CT shall have the right to determine, at its sole discretion, that this Limited Warranty is void as to that portion of the Product to which access is denied. Should the investigation of the leak be determined not to be covered under this Limited Warranty, any costs associated with the leak investigation shall be the Owner's sole responsibility. This Limited Warranty will become void if costs associated with non-warranty findings are not paid in full within thirty (30) days of receipt of any CT invoicing. If it is determined that CT installation procedures have not been followed, or the required materials have not been installed, CT may cancel this Limited Warranty at any time.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, Owner may make essential temporary repairs performed by a CT credentialed roofer. CT will only reimburse Owner for essential temporary repair expenses that would have been covered under this Limited Warranty.

MODIFICATION OF COVERAGE

Only CT's CB&I Warranty Services Department is authorized to modify coverage provided by this Limited Warranty. Issuance of this Limited Warranty or review or inspection of plans, the building, or roof system application by a CT representative does not waive any exclusions or conditions of this Limited Warranty.

TRANSFERABILITY OF LIMITED WARRANTY

This Limited Warranty is transferable one-time to one subsequent owner only if CT CB&I's Warranty Services Department is notified at the above listed Malvern address within thirty (30) days of real estate title transfer and upon payment of the applicable transfer fee. Failure of the Owner and subsequent Owner to transfer this Limited Warranty pursuant to these stated conditions terminates CT's warranty obligations and the Limited Warranty will be voided. This Limited Warranty is NOT otherwise transferable or assignable by contract or operation of law, either directly or indirectly.

This Limited Warranty shall become effective only upon the occurrence of all the following events:

1. Receipt of roofing contractor's notice of completion;
2. CT final inspection and completion of all punchlist items;
3. Payment of CT's warranty fee to CT; and
4. Owner's payment to roofing contractor for installation and supplies.

Should a dispute arise between any of the parties (contractor, Owner, CT) as to whether or not any of these Conditions Pertaining to Warranty Effectiveness have been satisfied, CT will hold the Limited Warranty in abeyance until such time as the parties agree that all Conditions have been satisfied. If and when this Limited Warranty becomes effective, the original completion date shall apply for all purposes of this Limited Warranty.

CT'S OBLIGATIONS, RESPONSIBILITIES, AND LIABILITY SHALL BE LIMITED TO REPAIRING OR REPLACING THE DEFECTIVE PRODUCT AS SET FORTH IN THIS LIMITED WARRANTY. IN NO EVENT SHALL CT BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY KIND, INCLUDING ANY DAMAGE TO THE PROPERTY, THE BUILDING OR ITS CONTENTS, OR FOR INJURY TO ANY PERSONS THAT MAY OCCUR AS A RESULT OF THE USE OF CT'S PRODUCTS OR AS A RESULT OF A BREACH OF THIS LIMITED WARRANTY. AGREEMENT TO BINDING ARBITRATION

Any and all claims, disputes, and other matters in question that may occur between the Owner, the contractor, and/or CT, arising out of, in connection with, or relating to this Limited Warranty or breach thereof, shall be submitted to BINDING ARBITRATION for resolution. The arbitration shall be conducted by the American Arbitration Association under its Construction Industry Arbitration Rules then in effect, unless the parties mutually agree otherwise. This agreement to arbitrate shall be specifically enforceable under the Federal Arbitration Act, 9 U.S.C. § 2 or the applicable state arbitration laws. The award rendered by the arbitrator shall be final, and judgment may be entered upon such award in accordance with applicable law in any court having jurisdiction thereof.

EXAMINATION OR INSPECTION

CT does not practice engineering or architecture. Roof inspections made by CT or an authorized agent of CT or issuance of this Limited Warranty does not constitute an approval of the roof, roof design plans or specifications, or construction or installation of the roof. Roof designs, construction plans, or installation of the roof system should be approved by the Owner or the Owner's professional. Any roof inspections performed by CT representatives are solely for the benefit of CT and do not constitute approval, representation, or warranty that the roof meets building code requirements.

SMARTCOAT™

LIMITED WARRANTY APPLICATION

This agreement is hereby entered into by and between CertainTeed LLC (hereinafter "CT") and the contractor identified below.

In consideration for being approved by CT as a SMARTCOAT Approved Applicator (hereinafter "Applicator") authorized to install SMARTCOAT liquid-applied roof systems, pursuant to CT's published Specifications and installation instructions (hereinafter "Specifications"), which will, subject to the provisions of this agreement, permit Applicator to apply for a CT SMARTCOAT No Dollar Limit Limited Warranty or Integrity Roof System NDL Limited Warranty, SMARTCOAT Extension (hereinafter "NDL"), Applicator agrees to be bound by the following terms and conditions:

1. The Applicator will use his/her best efforts to promote the distribution and sale of CT SMARTCOAT liquid-applied roof systems and materials.
2. Only liquid-applied roofing materials manufactured by CT or approved in writing by CT's Warranty Services Department shall be utilized in the application of a roof system warranted by CT.
3. The Applicator shall perform all applications of CT SMARTCOAT roofing materials in a timely and workmanlike manner, and all requirements which are incorporated in CT's Specifications in effect at the time of application must be followed.
4. The Applicator will notify CT at least 10 business days prior to commencing work to arrange for the pre-job site visit by CT.
5. In addition to the pre-job site visit cited in Paragraph 4 above, a CT observer shall be allowed to observe the project site during application of the SMARTCOAT roof system at times and on occasions which shall be within the sole discretion of CT, but which shall not unreasonably impose on the owner of the premises or the Applicator, in order to assure that the work being performed by the Applicator at the time of the site visit is in conformance with the pertinent CT SMARTCOAT roof systems Specifications.
6. The Applicator shall employ the necessary supervisory personnel and workers, together with suitable equipment, to complete the work without unnecessary delay and in such a manner as will aid CT to observe said work at a minimum expense. In the event that it becomes necessary to temporarily discontinue said work, Applicator agrees to notify CT as to when said work shall be resumed, and if the Applicator fails to give such notice, the SMARTCOAT Limited Warranty Application (hereinafter "Application") may be rejected at CT's option.
7. The Applicator agrees to notify CT promptly following completion of the SMARTCOAT roof system in order that CT can conduct a site visit to determine if any installation issues need to be addressed prior to declaring the SMARTCOAT roof system suitable for issuance of the NDL. Upon completion of the roof, the Applicator's copy of the Application form containing the roof completion date, receipts of SMARTCOAT products purchased, requisite in-progress and completed project photographs and accompanied by the balance of the NDL fee, shall be returned to CT as part of the process leading to issuance of an applicable NDL. It is a condition precedent to the issuance of the NDL that the Applicator complete and execute his/her copy of the Application.
8. The Applicator shall be responsible for forwarding the written NDL to the property owner.
9. Following issuance of an NDL, a joint site visit of the roof system will be conducted by a CT observer and the Applicator within two (2) years following completion of the roof installation. If such site visit or any other site visit during that 2-year period reveals any unsatisfactory roof or flashing condition which, in the sole opinion of CT, is due to application error or faulty application techniques, the Applicator shall, at his/her own expense, immediately make such repairs as are reasonably required by CT to improve the condition of the roof to a level satisfactory to CT. Beyond the aforesaid 2-year period, CT will be responsible to the Applicator only for repairs which have been authorized in advance by CT.
10. It is hereby mutually agreed that CT reserves the right to unilaterally cancel this agreement, in accordance with Paragraph 13 and/or the Code of Ethics and Professional Practices below, should, at any time during the period of this agreement, any of the following circumstances occur:
 - a) The financial viability of the Applicator becomes impaired.
 - b) The Applicator fails to comply with the terms of CT's published Specifications.
 - c) The workmanship of the Applicator becomes unacceptable to CT.
 - d) The Applicator fails to uphold his/her responsibilities and obligations under CT's SMARTCOAT Limited Warranty program (hereinafter "Warranty program"), including, but not limited to, complying with the process implemented by CT for determining whether SMARTCOAT roof systems are suitable for issuance of an NDL.
 - e) The Applicator or his/her employees make misrepresentations or unauthorized representations to his/her customer regarding CT's policies, products, or warranties.
 - f) The Applicator fails to complete a construction contract without justifiable cause.
11. The Applicator agrees to defend, indemnify, and hold CT harmless against any damages it may suffer as a result of misrepresentations made by the Applicator to CT, including, but not limited to, misrepresentations made during the process of applying to become a SMARTCOAT Approved Applicator or misrepresentations made with respect to specific applications of CT SMARTCOAT products and roof systems.
12. It is agreed that the Applicator is an independent contractor, has no authority to make any representations or warranties on behalf of CT, and shall defend, indemnify, and hold CT harmless for any damages caused by unauthorized representations, misrepresentations, or warranties made by him/her or by his/her employees or agents to parties other than CT. The Applicator agrees not to misrepresent to his/her customer the responsibility of CT under its NDL, and that, if the customer has any specific questions regarding CT's responsibility thereunder, the Applicator will promptly transmit such questions to CT's Warranty Services Department.
13. This agreement by either party, shall remain in effect for the remainder of the calendar year 2026. It may be renewed, at the option of CT, for successive 1-year periods. In order for any such renewal to be effective, it must be communicated in writing by CT. Either party shall have the right to terminate this agreement at any time after the effective date upon thirty (30) days' notice in writing to the other party. Any such notice shall be in writing and will be deemed as duly given upon mailing thereof by first class mail, certified or registered with postage prepaid.
14. Upon termination of this agreement by either party, the Applicator shall cease and desist from representing to the public that he/she is approved by CT as a SMARTCOAT Approved Applicator authorized to install SMARTCOAT roof systems which will qualify for issuance of an NDL. Termination of this agreement shall not relieve the Applicator of any of his/her obligations under Paragraphs 11 and 12 above, or of his/her obligations undertaken with respect to the construction contract or an NDL issued in connection with a SMARTCOAT roof system installed pursuant to the Warranty program.
15. These conditions supersede all prior SMARTCOAT Approved Applicator agreements between the parties and constitute the entire understanding with respect to the subject matter hereof, and shall not be amended or altered except in writing signed by an authorized representative of both parties.

COVERAGE

For a period of 5 years, from the date of installation completion, CertainTeed LLC ("CT") warrants to the original building owner ("Owner") that the SMARTCOAT Aluminum Coating ("Coating") used on the roof will be free from manufacturing defects that affect the performance of the Coating on the Owner's roof.

In the event there is a failure of the Coating due to a manufacturing defect during the warranty period, CT shall, at its sole discretion, replace, repair, or pay for the original cost of the defective product only, to return the Coating to a warrantable condition. Note: Repair leaks promptly to avoid water damage, including mold growth.

EXCLUSIONS FROM COVERAGE

This Limited Warranty does not cover leaks, damages, or injuries of any type, including, but not limited to, damage to roof insulation, roof decks, or other bases over which the Coating is applied and attributable directly or indirectly to any of the following:

1. Damage or leaks to the roof membrane caused directly or indirectly by natural disasters, including, but not limited to, falling objects, cyclones, hurricanes, tornadoes, or other winds or gusts exceeding 38 mph, earthquakes, lightning, hail, or fire;
2. Damage to the Coating, including, but not limited to, misuse, abuse, falling objects, tools, foot traffic, additional equipment or sign installation. This exclusion does not apply to the installation of a CT photovoltaic system when it is installed in accordance with the published installation for the photovoltaic system on a low-slope roof;
3. Damage to the roof membrane caused by clogged drains or lack of adequate drainage that promptly and readily removes water from the roof;
4. Lack of positive slope or inadequate drainage, to completely remove water from the roof system to prevent ponding water conditions on the roof system as defined by the NRCA (48 hours);
5. Damage to, or failure of, the roof membrane in any manner caused or contributed to by settlement, cracking, warping, expansion, contraction, deflection, or other movement of the building structure;
6. Failure to adhere to all CT application instructions, construction details, and SMARTCOAT Roof Maintenance Program as published at the time of installation;
7. Any use of roofing materials of any kind or nature not approved in CT's Commercial Roof Systems Specifications manual or in advance in writing by CT's Commercial Building & Infrastructure ("CB&I") Warranty Services Department;
8. Mold and other damage caused by water entering building;
9. Any other damage not attributable to a manufacturing defect of the CT Coating.

This Limited Warranty is only applicable when the Coating is properly installed according to CT published specifications and label instructions. This Limited Warranty does not cover leaks or damage caused by leaks. This Limited Warranty applies only to materials. This Limited Warranty does not include installation or labor costs. The existing roof, roof deck, and any other substrates have not been inspected by CT and is NOT part of this Limited Warranty. CT shall not be liable for any incidental, consequential, or other damages including, but not limited to, the loss of sales, profits, rent payments, inventory, equipment, valuables or other monetary losses, or damages to the structure or the structures contents, even if the actions or remedies provided under this Limited Warranty do not perform their specified purpose.

ROOF MAINTENANCE

This Limited Warranty is not a maintenance agreement or an insurance policy. Routine inspections and maintenance of the roof system must be completed by the Owner on a regular basis and are the Owner's responsibility. Inspections by the Owner shall take place at least on a semi-annual basis and shall be documented. Periodic inspections are the Owner's responsibility and shall include such things as making minor repairs, cleaning off debris, cleaning filters and gutters, unclogging drains, and removing standing water. Lack of regular maintenance shall void this Limited Warranty. For specific information on roof maintenance requirements please visit our website at www.certainteed.com.

UNAPPROVED REPAIRS, ALTERATIONS, ADDITIONS, OR DELETIONS

All repairs, alterations, additions, or deletions to any aspect of the roof that affects the Coating or any material contiguous thereto must have prior written approval of CT's CB&I Warranty Services Department (CertainTeed Commercial Building & Infrastructure, Warranty Services Department, 20 Moores Road, Malvern, PA 19355, (800) 396-8134 ext. 2). If the Owner, without prior written consent of CT, makes or permits any repairs, alterations, additions, or deletions to the roof that affect the Coating, all of CT's obligations, duties, and coverage under this Limited Warranty will terminate and the Limited Warranty will be voided.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, Owner may make essential temporary repairs performed by a qualified roofer. CT will only reimburse Owner for essential temporary repair expenses that would have been covered under this Limited Warranty.

NOTICE OF CLAIMS

Any claim or request for CT to perform under this Limited Warranty must be made by the Owner to CT in writing to the above listed address, by email to rpg@saint-gobain.com, or by visiting www.ctroof.com within thirty (30) days of discovery of the defect or CT will have no responsibility for repairs. Notification to a roofing contractor is not considered notice to CT. This notice of claim must include a general description of the alleged defect and a copy of your SMARTCOAT Roof Maintenance Program records. Owner shall grant access to the entire roof system as necessary for CT to investigate a claim, which includes, but is not limited to, the taking of samples that adequately demonstrate the alleged defect for testing by CT as part of the claim investigation. If access is not granted, CT shall have the right to determine, at its sole discretion, that this Limited Warranty is void as to that portion of the roof system to which access is denied. Should the investigation of the leak be determined not to be covered under this Limited Warranty, any costs associated with the leak investigation shall be the Owner's sole responsibility. This Limited Warranty will become void if costs associated with non-warranty findings are not paid in full within thirty (30) days of receipt of any CT invoicing. If it is determined that CT installation procedures have not been followed, or the required materials have not been installed, CT may cancel this Limited Warranty at any time.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, Owner may make essential temporary repairs performed by a qualified roofer. CT will only reimburse Owner for essential temporary repair expenses that would have been covered under this Limited Warranty.

TRANSFERABILITY

This Limited Warranty is transferable one-time to one subsequent owner only if CT CB&I's Warranty Services Department is notified at the above listed Malvern address within thirty (30) days of real estate title transfer and upon payment of the applicable transfer fee. Failure of the Owner and subsequent Owner to transfer this Limited Warranty pursuant to these stated conditions terminates CT's warranty obligations and the Limited Warranty will be voided. This Limited Warranty is NOT otherwise transferable or assignable by contract or operation of law, either directly or indirectly.

CONDITION PERTAINING TO LIMITED WARRANTY EFFECTIVENESS

This Limited Warranty shall only become effective following the complete installation of the Coating according to CT published specifications and payment in full to the roofing contractor. Should a dispute arise between any of the parties (contractor, Owner, CT) as to whether or not the contractor was paid in full, CT will hold the Limited Warranty in abeyance until such time as the parties agree that this condition has been satisfied. If and when this Limited Warranty becomes effective, the original date of installation shall apply for all purposes of this Limited Warranty.

EXCLUSIVE WARRANTY AND LIMITATION OF REMEDIES

THIS DOCUMENT CONSTITUTES THE EXCLUSIVE WARRANTIES AND REMEDIES PROVIDED BY CT. THE WARRANTIES AND REMEDIES CONTAINED IN THIS DOCUMENT ARE EXPRESSLY IN LIEU OF ANY AND ALL OTHER OBLIGATIONS, GUARANTEES, AND WARRANTIES, WHETHER WRITTEN, ORAL, OR IMPLIED BY STATUTE OR AT LAW. STATE OR PROVINCIAL LAW WILL DETERMINE THE PERIOD OF TIME FOLLOWING THE SALE THAT A PROPERTY OWNER MAY SEEK A REMEDY UNDER THE IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. CT'S OBLIGATIONS, RESPONSIBILITIES, AND LIABILITY SHALL BE LIMITED TO REPAIRING OR REPLACING THE DEFECTIVE CT COATING AS SET FORTH IN THIS LIMITED WARRANTY. IN NO EVENT SHALL CT BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY KIND, INCLUDING ANY DAMAGE TO THE PROPERTY, THE BUILDING OR ITS CONTENTS, OR FOR INJURY TO ANY PERSONS THAT MAY OCCUR AS A RESULT OF THE USE OF THE CT COATING OR AS A RESULT OF A BREACH OF THIS WARRANTY. IF YOUR STATE OR PROVINCE DOES NOT ALLOW EXCLUSIONS OR LIMITATIONS OF SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU. IN NO EVENT SHALL CT'S TOTAL LIABILITY ARISING OUT OF OR RELATED TO THE CT COATING OR THIS WARRANTY EXCEED THE COST TO THE OWNER OF THE CT COATING OF THE ORIGINAL INSTALLATION. THIS LIMITED WARRANTY MAY NOT BE MODIFIED, ALTERED, OR EXPANDED BY ANYONE, INCLUDING PRODUCT DISTRIBUTORS, DEALERS, SELLERS, INSTALLERS, CONTRACTORS, AND/OR CT FIELD REPRESENTATIVES. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE OR PROVINCE TO PROVINCE.

MODIFICATIONS OF COVERAGE

Only CT's CB&I Warranty Services Department is authorized to modify coverage provided by this Limited Warranty. Issuance of this Limited Warranty or review or inspection of plans, the building, or product application by a CT representative does not waive any exclusions or conditions of this Limited Warranty. Application of the CT Coating that deviates from CT's Commercial Roof Systems Specifications manual voids coverage, unless prior written approval is provided by CT's CB&I Warranty Services Department.

AGREEMENT TO BINDING ARBITRATION

Any and all claims, disputes, and other matters in question that may occur between the Owner, the contractor, and/or CT, arising out of, in connection with, or relating to this Limited Warranty or breach thereof, shall be submitted to BINDING ARBITRATION for resolution. The arbitration shall be conducted by the American Arbitration Association under its Construction Industry Arbitration Rules then in effect, unless the parties mutually agree otherwise. This agreement to arbitrate shall be specifically enforceable under the Federal Arbitration Act, 9 U.S.C. § 2 or the applicable state arbitration laws. The award rendered by the arbitrator shall be final and judgment may be entered upon such award in accordance with applicable law in any court having jurisdiction thereof.

EXAMINATION OR INSPECTION

CT does not practice engineering or architecture. Roof inspections made by CT or an authorized agent of CT or issuance of this Limited Warranty does not constitute an approval of the roof, roof design plans or specifications, or construction or installation of the roof. Roof designs, construction plans, or installation of the roof system should be approved by the Owner or the Owner's professional. Any roof inspection performed by CT representatives are solely for the benefit of CT and do not constitute an approval, representation, or warranty that the roof meets building code requirements.

PROTOCOL

This test method covers CertainTeed LLC (CT) field procedure for determining the strength and characteristics of the bond of a liquid-applied coating for use on varying roof types. CT recommends an adhesion test be conducted prior to the application of any SMARTCOAT Coating and requires such testing where specified for SMARTCOAT Limited Warranties.

A minimum of two adhesion tests should be conducted in the field of the roof or one every 10,000 sq. ft. Additional tests should be conducted over extensively degraded substrates with cracked surfaces, any change in substrate material, and any areas with evidence of ponding water.

NOTE: Gravel surfaced BUR roof membranes are not an acceptable substrate to install any SMARTCOAT product to and in no event will any CertainTeed Limited Warranty be valid in this type of application.

TOOLS & MATERIALS

You will need the following materials to conduct an adhesion test:

- SMARTCOAT 100 Roof Wash if roof wash is to be utilized on the project
- Rag(s)
- SMARTFAB 500 Series Reinforcement cut into 1" x 8" strips (longer strips can be used if desired/easier to manage)
- SMARTCOAT 200 Series Bleed Blocker/Universal Primer (appropriate to substrate) if product is to be utilized on the project
- SMARTCOAT 400 Series Coating (as specified for the project) if product is to be directly applied to the existing roof/substrate
- Fish Scale
- Knife/Blade
- Wet Mil Thickness Gauge

INSTRUCTIONS

1. Clean the roof surface where the adhesion test is to be conducted. Use any of the following, as appropriate, to adequately remove all dirt, rust, grease, debris, or anything that could interfere with adhesion: SMARTCOAT 100 Roof Wash, rinsed to ensure all detergent is removed, pressure washer, broom, or brush. A rag should scrub up clean when the roof surface is properly prepared.
- 2a. If a Bleed Blocker or Primer is to be used:
In this case, the bond between the Bleed Blocker/Primer and the substrate is the interface to be tested. Apply the Bleed Blocker/Primer at a rate of approximately 1-1.5 gallons/100 sq. ft. depending on surface porosity (16-24 wet mils). While the Bleed Blocker/Primer is wet, embed SMARTFAB 500 Series reinforcement strips, 1" x 12" (or longer), allowing at least 4" of the strip to extend beyond the Bleed Blocker/Primer. After the reinforcement is embedded and completely saturated, apply a second coat of Bleed Blocker/Primer to fully encapsulate the reinforcement ensuring at least 4" of the reinforcement strip remains free of Bleed Blocker/Primer. Lightly brush/roll to ensure all air is removed.
- 2b. If the Coating is to be direct-bonded without Primer/Bleed Blocker:
In this case, the bond between the Coating and the substrate is the interface to be tested. Apply the Coating at a rate of at approximately 1-1.5 gallons/100 sq. ft. depending on surface porosity (16-24 wet mils). While the Coating is wet, embed SMARTFAB 500 Series reinforcement strips, 1" x 12" (or longer), allowing at least 4" of the strip to extend beyond the Coating. After the reinforcement is embedded and completely saturated, apply a second coat of Coating to fully encapsulate the reinforcement ensuring at least 4" of the reinforcement strip remains free of Coating. Lightly brush/roll to ensure all air is removed.

THE BLEED BLOCKER/PRIMER/COATING MUST BE FULLY CURED ABOVE PUBLISHED MINIMUM APPLICATION TEMPERATURE BEFORE AN ADHESION TEST IS CONDUCTED.

Allow SMARTCOAT 200/210 Bleed Blocker/Primer a minimum of one week (7 days) to cure.

Allow SMARTCOAT 400/401/405 Acrylic Coating a minimum of one week (7 days) to cure.

Allow SMARTCOAT 450 High Solids Silicone Coating a minimum 72 hours to cure.

3. Lightly score the entire 12" length of the reinforcement strip on both sides to ensure you are measuring the adhesive bond to the roof substrate and not the force required to tear the membrane. Tie a knot at the end of the 4" dry reinforcement strip such that the hook end of the fish scale can be attached. Place the fish scale to facilitate a 90° peel, pulling the reinforcement up and back through the Coating. Pull the reinforcement slowly, approximately 2"/sec.

The reinforcement shall require a minimum 2 lbs. per lineal inch of force to peel. Ideally, the peel shall indicate cohesive failure, leaving some coating adhered to the roof substrate and some coating adhered to the back side of the reinforcement. The adhesion test is considered a fail if the coating is pulled off the existing roof substrate with less than 2 lbs. per lineal inch of force.

Roof installed by: _____ **Warranty #** _____

The following information is designed to assist owners in establishing a regular and beneficial roof inspection and maintenance program. This important area of responsibility for the building owner can provide many long-term benefits, including extended life expectancy of the roofing system, reduced average in-place cost, prevention of major deterioration resulting from minor problems, and eventually, reduced roof system replacement cost. Failure to properly maintain the roof system voids all CertainTeed LLC ("CertainTeed") Commercial Roofing Limited Warranties.

Roof Maintenance Guidelines

All roofs require regular inspections and periodic maintenance to achieve their expected life. Roofs should be inspected at least twice yearly, in the spring and fall. Additionally, all roofs should be inspected after any severe weather or storms. The roofing contractor who installed the roof membrane, in conjunction with the building owner's maintenance personnel, should perform these inspections. Leaks occur most often at flashings, pitch pans, gravel stops, and other penetrations. Wind damage occurs most often at the roof edge termination. Pay special attention to these areas. All components of the roof are the owner's responsibility to maintain and repair as necessary to prevent future leaks or damages.

General – One of the keys to avoiding roof damage is limiting access to the roof. Allow only authorized personnel on the roof who understand good roof access procedures and precautions. Bag and remove all debris from the roof. Keep grease and oil off of the roof. Clean and remove any liquid deposits immediately. Do not allow foot traffic on the roof in very hot or very cold weather. Do not allow the installation of television or radio antennas, satellite dishes, or other mechanical equipment without notifying CertainTeed for approval and for consultation about the methods and details for these installations.

Modified Flashings – Inspect and service flashings on a routine basis.

Roof Drains – CertainTeed requires positive drainage. Owners must keep roof drains and the surrounding areas free of debris to allow for proper drainage. Maintain proper attachment of drain clamping rings.

Metal Flashing – Start with a visual examination looking for areas of damage or rust. Ensure that the flashing has remained properly attached and sealed. Repair or replace areas with damage, poor caulking, and all loose areas including counterflashing, coping, seams, and/or joints.

Pitch Pans – Keep pitch pans full at all times. Examine and repair the metal pan assembly when necessary.

Rooftop Equipment – Qualified roofing personnel should accompany the equipment installation and/or service employees. If this is not practical, have qualified roofing personnel inspect the area after the equipment installation and/or service employees have completed their work. Regularly check and maintain the condition of all rooftop equipment. Ensure that no substances from the equipment are being deposited on the roof, and if deposits are present, clean immediately. Check equipment flashing for proper condition.

Roof Coating – Visually inspect for signs of deterioration. Maintenance or replacement completed by a roofing professional is essential. Coating life is affected by a variety of factors including climate and environment.

Other – The above list reflects only the most common components found on roof systems; it is not all-inclusive. Contact CertainTeed for additional information.

Building Owner Inspection and General Recommendations

- A. Utilize roofing professionals or thoroughly trained maintenance personnel for roof-related issues. Use of a Registered Roof Consultant (RRC) or Registered Roof Observer (RRO) is recommended.
- B. Building owners must file all job records, drawings, and specifications for future reference. Contract with a roofing contractor authorized by CertainTeed to set up a regular inspection and roof maintenance schedule. Record maintenance procedures as they occur. Log all roof access times and other trades working on the roof, in case damage should occur. Report damage as soon as it occurs so repairs may be scheduled and executed as soon as possible.
- C. Make more frequent inspections (six times per year) on buildings that house manufacturing facilities that evacuate or exhaust debris or other contaminants (e.g., grease) onto the roof.
- D. Inspect the exterior of the building for settlement or movement. Structural movement may result in splits in the roof membrane.
- E. Repairs should be performed as soon as needed, building owners should not allow a nuisance leak to develop into a major problem, degrading insulation and destroying a large portion of the roof assembly. While a roofing contractor authorized by CertainTeed should perform repairs and maintenance work, the owner can help maintain the roof by ensuring that minor clean-up and maintenance procedures are performed (e.g., regular checking and cleaning of debris from roof and around drains).
- F. Notify CertainTeed immediately after a roof leak occurs. If possible, note conditions resulting in leakage. Heavy or light rain, wind direction, temperature, and the time of year that the leak occurs are all important clues to tracing roof leaks. Note whether the leak stops shortly after each rain or continues to drip until the roof is dry. If the owner is prepared with the facts, the diagnosis and repair of roof problems can proceed more rapidly.
- G. In some emergency situations, owner-applied temporary patches may be made to stop leaks to minimize property loss. Except for certain emergency situations, owners should not attempt roof repairs. The puncturing of a blister or the spreading of a liquid-applied coating or bituminous cement may only cover up evidence needed to ascertain the real problem. For your convenience, we have provided a basic inspection form on the reverse side of this page that addresses several critical areas of the roofing system.

COVERAGE

CertainTeed LLC ("CT") hereby warrants to the Owner that the thermal insulation R-Value of its family of FlintBoard® polyisocyanurate foam insulation products ("FlintBoard") will not at any time after the first (1st) year of purchase, but prior to the start of the twentieth (20th) year after purchase, diminish to less than eighty percent (80%) of the published R-Value of the FlintBoard at the time of purchase. This Limited Warranty is expressly made subject to the following terms, conditions, and limitations:

WARRANTY LIMITED TO ONE EVALUATION

Owner agrees that the Limited Warranty is based on an evaluation of FlintBoard as hereinafter set forth, and that the FlintBoard may be evaluated for R-Value only one time during the time period for which this Limited Warranty is made. Owner agrees and understands that the FlintBoard may not be evaluated each year and that the Limited Warranty applies only to the results of the initial test performed on the product.

PROOF OF PURCHASE

As a condition precedent to recovery under this Limited Warranty, Owner agrees to retain the original Proof of Purchase ("Sales Receipt") of FlintBoard product and to submit the same to CT when filing a claim. The original Sales Receipt must clearly establish that it relates to the FlintBoard which is the subject of the claim.

WARRANTY AND LIMITATION OF REMEDIES

THIS DOCUMENT CONSTITUTES THE EXCLUSIVE WARRANTIES AND REMEDIES PROVIDED BY CT. THE WARRANTIES AND REMEDIES CONTAINED IN THIS DOCUMENT ARE EXPRESSLY IN LIEU OF ANY AND ALL OTHER OBLIGATIONS, GUARANTEES, AND WARRANTIES, WHETHER WRITTEN, ORAL, OR IMPLIED BY STATUTE OR AT LAW. STATE OR PROVINCIAL LAW WILL DETERMINE THE PERIOD OF TIME FOLLOWING THE SALE THAT A PROPERTY OWNER MAY SEEK A REMEDY UNDER THE IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. CT'S OBLIGATIONS, RESPONSIBILITIES, AND LIABILITY SHALL BE LIMITED TO REPAIRING OR REPLACING THE DEFECTIVE FLINTBOARD PRODUCT AS SET FORTH IN THIS LIMITED WARRANTY. IN NO EVENT SHALL CT BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY KIND, INCLUDING ANY DAMAGE TO THE PROPERTY, THE BUILDING OR ITS CONTENTS, OR FOR INJURY TO ANY PERSONS THAT MAY OCCUR AS A RESULT OF THE USE OF THE FLINTBOARD PRODUCT OR AS A RESULT OF A BREACH OF THIS WARRANTY. IF YOUR STATE OR PROVINCE DOES NOT ALLOW EXCLUSIONS OR LIMITATIONS OF SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU. IN NO EVENT SHALL CT'S TOTAL LIABILITY ARISING OUT OF OR RELATED TO FLINTBOARD PRODUCT OR THIS WARRANTY EXCEED THE COST TO THE OWNER OF THE FLINTBOARD PRODUCT OF THE ORIGINAL INSTALLATION. IN NO EVENT SHALL CT BE LIABLE FOR ANY DAMAGES OR EXPENSES RELATED TO THE REMOVAL OR REPLACEMENT OF THE FLINTBOARD OR ANY COVERINGS OVER THE FLINTBOARD. THIS LIMITED WARRANTY MAY NOT BE MODIFIED, ALTERED, OR EXPANDED BY ANYONE, INCLUDING PRODUCT DISTRIBUTORS, DEALERS, SELLERS, INSTALLERS, CONTRACTORS, AND/OR CT FIELD REPRESENTATIVES. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE OR PROVINCE TO PROVINCE.

LIMITATIONS OF COVERAGE

CT shall not be liable for, and this Limited Warranty does not apply to: (a) FlintBoard which has been damaged, abused, misused, punctured, crushed, or improperly applied or installed; (b) FlintBoard which has been harmed by use or environmental conditions such that the foam cells have been ruptured by excessive heat, cold, and/or humidity; (c) FlintBoard wherein the moisture content as shown by the moisture content test taken on the sample at the time of evaluation indicates an excess of three percent (3%) moisture by weight; (d) FlintBoard which has not been handled, stored, or used according to the instructions outlined on CT labels or CT product literature in effect at the date of sale; or (e) any other cause not related to manufacturing defects.

EVALUATION OF R-VALUE AND NOTICE OF CLAIM

If at any time after the first (1st) year from the date of purchase of the FlintBoard, but prior to the twentieth (20th) year, Owner decides to evaluate the FlintBoard R-Value, Owner shall notify CT in writing at CT's Commercial Building & Infrastructure ("CB&I") Warranty Services Department, 20 Moores Road, Malvern, PA 19355, (800) 396-8134 at least sixty (60) days prior to the removal of the installed samples. Owner agrees that a CT representative shall monitor and choose the sampling places, the testing facility, and the testing procedures. Owner agrees, at its own expense, to remove samples, replace and repair the sample area, and have tests made on the FlintBoard only in the presence of a CT representative. Owner further agrees that a moisture content test shall also be performed under the above terms and conditions and that Owner shall be responsible for all costs involved in connection therewith. If the Owner removes or damages the FlintBoard prior to the scheduled sampling, this Limited Warranty shall be void. All testing of the insulation samples will be conducted at a NAVLP certified independent testing laboratory approved by CT. Results of the testing will be final and binding on all parties concerned.

LIMITATION OF LIABILITY

If the test results of the FlintBoard samples as determined by the independent testing laboratory verify that the R-Value has fallen below eighty percent (80%) of CT published specifications in force at the time of the original sale, CT will reimburse Owner a percentage of Owner's original purchase price of FlintBoard product pursuant to the following schedule:

Year(s) After	Percent Reimbursement Of Original Purchase	Year(s) After	Percent Reimbursement Of Original Purchase
1-10	100%	16	40%
11	90%	17	30%
12	80%	18	20%
13	70%	19	10%
14	60%	20	0%
15	50%		

THE AMOUNT ORIGINALLY PAID FOR THE FLINTBOARD BY THE OWNER SHALL BE EVIDENCED BY THE ORIGINAL SALES RECEIPT. IN NO EVENT SHALL THE AMOUNT OF ANY LIABILITY AND/OR REIMBURSEMENT OF CT UNDER THIS LIMITED WARRANTY BE GREATER THAN THE ORIGINAL PURCHASE PRICE OF THE FLINTBOARD.

NOTE: Not more than one claim may be filed on any one building.

TRANSFERABILITY OF WARRANTY

This Limited Warranty may be transferred to one subsequent Owner only if the CT CB&I Warranty Services Department is notified at the above listed Malvern address within thirty (30) days of real estate title transfer and upon payment of the applicable transfer fee to CT. Failure of the Owner to transfer this Limited Warranty pursuant to these stated conditions terminates CT's warranty obligations and the Limited Warranty will be voided. This Limited Warranty may not be transferred a second time. If a claim was made by the first Owner and settled or rejected, this warranty is no longer in effect and may not be transferred to a second Owner.

CONDITION PERTAINING TO WARRANTY EFFECTIVENESS

This Limited Warranty shall become effective following complete installation of the FlintBoard and payment in full to the roofing contractor. Should a dispute arise between any of the parties (contractor, Owner, CT) as to whether or not the contractor was paid in full, CT will hold the Limited Warranty in abeyance until such time as the parties agree that this condition has been satisfied. If and when this Limited Warranty becomes effective, the original date of installation shall apply for all purposes of this Limited Warranty.

AGREEMENT TO BINDING ARBITRATION

Any and all claims, disputes, and other matters in question that may occur between the Owner, the Contractor, and/or CT, arising out of, in connection with, or relating to this Limited Warranty or breach thereof, shall be submitted to BINDING ARBITRATION for resolution. The arbitration shall be conducted by the American Arbitration Association under its Construction Industry Arbitration Rules then in effect, unless the parties mutually agree otherwise. This agreement to arbitrate shall be specifically enforceable under the Federal Arbitration Act, 9 U.S.C. § 2 or the applicable state arbitration laws. The award rendered by the arbitrator shall be final and judgment may be entered upon such award in accordance with applicable law in any court having jurisdiction thereof.

INSPECTION

CT does not practice engineering or architecture. Roof inspections made by CT or an authorized agent of CT or issuance of this Limited Warranty does not constitute an approval of the roof, roof design plans or specifications, or construction or installation of the roof. Roof designs, construction plans, or installation of the roof system should be approved by Owner or Owner's professional. Any roof inspection performed by CT representatives are solely for the benefit of CT and do not constitute approval, representation, or warranty that the roof meets building code requirements.

The existing roof deck and/or other substrates have not been inspected by CT and are NOT part of this Limited Warranty.

ROOF MAINTENANCE

This Limited Warranty is not a maintenance agreement or an insurance policy. Routine inspections and maintenance of the roof system must be completed by the Owner on a regular basis and are the Owner's responsibility. Inspections by Owner shall take place at least on a semi-annual basis and shall be documented. Periodic inspections are the Owner's responsibility and shall include such things as making minor repairs, cleaning off debris, cleaning filters and gutters, unclogging drains, and removing standing water. Lack of regular maintenance shall void this Limited Warranty. For specific information on roof maintenance requirements please visit our website at www.certainteed.com.

UNAPPROVED REPAIRS, ALTERATIONS, ADDITIONS, OR DELETIONS

All repairs, alterations, additions, or deletions to any aspect of the roof that affects SmartFlash ONE or any material contiguous thereto must have prior written approval of the CT Commercial Building & Infrastructure's ("CB&I") Warranty Services Department, 20 Moores Road, Malvern, PA 19355, (800) 396-8134 ext. 2. If Owner, without prior written consent of CT, makes or permits any repairs, alterations, additions, or deletions to the roof that affect the SmartFlash ONE, all of CT's obligations, duties, and coverage under this Limited Warranty will terminate and the Limited Warranty will be voided.

NOTICE OF CLAIMS

Any claim or request for CT to perform under this Limited Warranty must be made by Owner in writing to the above listed address, by email to rpg@saint-gobain.com, or by visiting www.ctroof.com within thirty (30) days of discovery of the defect, and Owner must send proof of purchase and samples that demonstrate the alleged manufacturing defect to CT CB&I's Warranty Services Department. Notification to a roofing contractor is not considered notice to CT. This notice of claim must include a general description of the alleged defect. Owner shall grant access to the entire roofing system as necessary for CT to investigate the claim, which includes, but is not limited to, the taking of samples that adequately demonstrate the alleged defect for testing by CT as part of the claim investigation. If access is not granted, CT shall have the right to determine, at its sole discretion, that this Limited Warranty is void as to that portion of the roof to which access is denied. Contract or invoice from roofer for service, product, or work completed does not constitute Proof of Purchase of CT products. Original Proof of Purchase is required and best obtained from the place of purchase. Copies are not acceptable. Failure to notify CT in a timely manner shall relieve CT of any obligation under this Limited Warranty.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, Owner may make essential temporary repairs performed by a qualified roofer. CT will only reimburse Owner for essential temporary repair expenses that would have been covered under this Limited Warranty.

TRANSFERABILITY

This Limited Warranty may be transferred to a subsequent owner only if CT CB&I's Warranty Services Department is notified at the above listed address within thirty (30) days of real estate title transfer and upon payment of the applicable transfer fee to CT. Failure to transfer this Limited Warranty pursuant to these stated conditions terminates CT's warranty obligations. If it is determined at CT's sole discretion that the roof is in a state of poor maintenance or in disrepair, CT reserves the right to reject the transfer and void this Limited Warranty. All transfer fees will be refunded minus the cost of any applicable inspection and administrative fees.

LIMITATIONS OF REMEDY AND LIABILITY

THIS DOCUMENT CONSTITUTES THE EXCLUSIVE WARRANTIES AND REMEDIES PROVIDED BY CT. THE WARRANTIES AND REMEDIES CONTAINED IN THIS DOCUMENT ARE EXPRESSLY IN LIEU OF ANY AND ALL OTHER OBLIGATIONS, GUARANTEES, AND WARRANTIES, WHETHER WRITTEN, ORAL, OR IMPLIED BY STATUTE OR AT LAW. STATE OR PROVINCIAL LAW WILL DETERMINE THE PERIOD OF TIME FOLLOWING THE SALE THAT A PROPERTY OWNER MAY SEEK A REMEDY UNDER THE IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. CT'S OBLIGATIONS, RESPONSIBILITIES, AND LIABILITY SHALL BE LIMITED TO PROVIDING REPLACEMENT SMARTFLASH ONE OR REFUNDING THE ORIGINAL COST OF THE SMARTFLASH ONE AS SET FORTH IN THIS LIMITED WARRANTY. IN NO EVENT WILL CT BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY KIND, INCLUDING THE LOSS OF SALES, PROFITS, RENT PAYMENTS, INVENTORY, EQUIPMENT, VALUABLES OR OTHER MONETARY LOSSES, OR DAMAGE TO THE BUILDING OR TO THE BUILDING'S CONTENTS, OR FOR INJURY TO ANY PERSONS THAT MAY OCCUR AS A RESULT OF THE USE OF SMARTFLASH ONE OR AS A RESULT OF A BREACH OF THIS WARRANTY. IF YOUR STATE OR PROVINCE DOES NOT ALLOW EXCLUSIONS OR LIMITATIONS OF SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU. IN NO EVENT WILL CT'S TOTAL LIABILITY ARISING OUT OF OR RELATED TO SMARTFLASH ONE OR THIS WARRANTY EXCEED THE COST TO THE OWNER OF THE SMARTFLASH ONE THAT WAS ORIGINALLY INSTALLED. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE OR PROVINCE TO PROVINCE.

MODIFICATIONS OF COVERAGE

Except as noted herein, this Limited Warranty may not be modified, altered, or expanded by anyone, including product distributors, dealers, sellers, installers, contractors, and/or CT field representatives. Only CT's CB&I Warranty Services Department is authorized to modify coverage provided by this Limited Warranty. Issuance of this Limited Warranty or review or inspection of plans, the building or product application by a CT representative does not waive any exclusions or conditions of this Limited Warranty. Application of the CT SmartFlash ONE materials that deviates from CT's Commercial Roof Systems Specifications manual voids coverage unless prior written approval is provided by CT's CB&I Warranty Services Department.

EXAMINATION OR INSPECTION

CT does not practice engineering or architecture. Roof inspections made by CT or an authorized agent of CT or issuance of this Limited Warranty does not constitute an approval of the roof, roof design plans, or specifications, or construction or installation of the roof. Roof designs, construction plans, or installation of the roof system should be approved by the Owner or the Owner's professional. Any roof inspections performed by CT representatives are solely for the benefit of CT and do not constitute approval, representation, or warranty that the roof meets building code requirements.

Liquid-Applied Roof system installed by:

Warranty # _____

The following information is designed to assist owners in establishing a regular and beneficial SMARTCOAT Liquid-Applied Roof (hereinafter LAR) system inspection and maintenance program. This important area of responsibility for the building owner can provide many long-term benefits, including extended life expectancy of the LAR system, reduced average in-place cost, prevention of major deterioration resulting from minor problems and eventually, reduced LAR system replacement cost. Failure to properly maintain the LAR system voids all CertainTeed LLC (CertainTeed) SMARTCOAT Limited Warranties (Warranty/Warranties).

LAR SYSTEM MAINTENANCE GUIDELINES

All LAR Systems require regular inspections and periodic maintenance to achieve their expected life. LAR systems should be inspected at least twice yearly, in the spring and fall. Additionally, all LAR systems should be inspected after any severe weather or storms and after other trades, especially HVAC, have worked on the roof. The SMARTCOAT Master, Master PRO or Master PREMIER Liquid-Applied Roofing Contractor (hereinafter Contractor) who installed the LAR system, in conjunction with the building owner's maintenance, or other authorized personnel, should perform these inspections. Leaks occur most often at flashings, pitch pans, metal tie-ins, drains, and other penetrations. Wind damage occurs most often at the roof edge termination. Pay special attention to these areas. All components of the LAR system are the owner's responsibility to maintain.

General – One of the keys to avoiding LAR system damage is limiting access to the roof. Allow only authorized personnel on the LAR system who understand good roof access procedures and precautions. Bag and remove all debris from the LAR system. Keep grease and oil off of the LAR system. Clean and remove any liquid deposits immediately. Do not allow foot traffic on the roof in very hot or very cold weather. Do not allow the installation of television or radio antennas, satellite dishes, or other mechanical equipment without notifying CertainTeed for approval and for consultation about the methods and details for these installations. CertainTeed Warranties apply to the original product/system installation only. Alterations, deletions or additions are the building owner's responsibility to maintain.

Flashings – Inspect and service flashing on a routine basis.

Roof Drains – CertainTeed requires positive drainage. Model building codes and good roofing practice have established a minimum slope of 1/4"/12 running inches. All LAR systems should be designed and installed to drain without holding water. Water should not pond in drain sumps or any other collection area that is covered in the Warranty. Owners must keep roof drains and the surrounding areas free of debris to allow for proper drainage. Maintain proper attachment of drain clamping rings.

Metal Flashing – Start with a visual examination looking for areas of damage or rust. Ensure that the flashing has remained properly attached and sealed. Repair or replace areas with damage, poor caulking, and all loose areas including counterflashing, coping, seams, and/or joints. Where stucco walls exist, be sure that weeps are open and clear.

Pitch Pans – Keep pitch pans full at all times. Examine and repair the metal pan assembly when necessary.

Rooftop Equipment – Qualified roofing personnel should accompany equipment installation and/or service employees. If this is not practical, have qualified roofing personnel inspect the area after the equipment installation and/or service employees have completed their work. Regularly check and maintain the condition of all rooftop equipment. Ensure that no substances from the equipment are being deposited on the roof and if deposits are present, clean immediately. Check equipment flashing for proper condition. Screws and other metal shavings are commonly discarded on rooftops after equipment installation and/or service employees have completed their work. Be sure to inspect these areas for screws, metal shavings, loose debris, etc., after this type of work has been completed.

Roof Coating – Visually inspect for signs of deterioration.

Maintenance or replacement completed by a roofing professional is essential. Coating life is affected by a variety of factors including climate and environment.

Other – The above list reflects only the most common components found on LAR systems; it is not all-inclusive. Contact the CertainTeed Commercial Technical Services Department for additional information.

OWNER INSPECTION AND GENERAL RECOMMENDATIONS

- A. Utilize Contractor professionals or thoroughly trained maintenance personnel for LAR system-related issues. Use of a Registered Roof Consultant (RRC) or Registered Roof Observer (RRO) is recommended.
- B. Owners should file all job records, drawings, and specifications for future reference. Contract with a Contractor authorized by CertainTeed to set up a regular inspection and LAR system maintenance schedule. Record maintenance procedures as they occur. Log all roof access times and other trades working on the roof, in case damage should occur. Report damage as soon as it occurs so repairs may be scheduled and executed as soon as possible.
- C. Make more frequent inspections (six times per year) on buildings that house manufacturing facilities that evacuate or exhaust debris or other contaminants (e.g., grease) onto the roof.
- D. Inspect the exterior of the building for settlement or movement. Structural movement may result in splits in the LAR system.
- E. Repairs should be performed as soon as needed. Owners should not allow a nuisance leak to develop into a major problem, degrading insulation and destroying a large portion of the roof assembly. While a Contractor authorized by CertainTeed should perform repairs and maintenance work, the owner can help maintain the roof by ensuring that minor clean-up and maintenance procedures are performed (e.g., regular checking and cleaning of debris from the LAR system and around drains).
- F. Notify CertainTeed immediately after a roof leak occurs. If possible, note conditions resulting in leakage such as heavy or light rain, wind direction, temperature, and the time of year that the leak occurs. These are all important clues to tracing roof leaks. Note whether the leak stops shortly after each rain or continues to drip until the roof is dry. If the owner is prepared with the facts, the diagnosis and repair of LAR system problems can proceed more rapidly.
- G. In some emergency situations, owner-applied temporary repairs may be made to stop leaks to minimize property loss. Only compatible CertainTeed LAR materials should be used. Except for certain emergency situations, owners should not attempt LAR system repairs.

For your convenience, we have provided a basic inspection form on the reverse side of this page that addresses several critical areas of the LAR system.

A full-page sheet of white graph paper with a light gray grid. The grid consists of small squares, approximately 10 units wide by 10 units high. There are no margins or additional markings on the page.

Low-Slope Residential

2026 Limited Warranty

Thank you for your recent purchase of a CertainTeed LLC ("CertainTeed") low-slope residential roof system. Since 1904, CertainTeed has been producing quality roofing products that provide long-lasting protection for homes of every size, style and age. For over 100 years, the basis for our name, "Quality made certain, satisfaction guaranteed," has been our ongoing philosophy.

This document serves as your Limited Warranty and explains the coverage associated with specific roof systems and the period of time for which they are covered. Take the time to understand how CertainTeed protects your purchase by standing behind our products.

Limited Warranty

What and Who Are Covered and for How Long

CertainTeed hereby warrants to the original owner or the first subsequent owner, as specified in this Limited Warranty, that the CertainTeed Flintlastic SA systems and SMARTCOAT roofing products included under Roof Systems & Warranty Durations section ("Products"), will be free of manufacturing defects that cause leaks for the Warranty Duration starting from the date of completion of the Product installation. Products include the following CertainTeed components: applicable base sheet, interplies, cap sheet and FlintBond® between layers if applicable, and Arctic Edge Cold Lap Tape, as required for Warranty Duration and applied per CertainTeed's application instructions and construction details as published at the time of installation. Only residential structures with low-slope roofs totaling less than 2,000 square feet (20 squares) are covered by this Limited Warranty.

SureStart™ Protection Coverage

Under SureStart Protection, CertainTeed will pay to repair or replace, at its sole option, the Product CertainTeed determines is defective and causing leaks during the SureStart period and only as necessary to restore the Product to a watertight condition. Only manufacturing defects in the Product that cause leaks are covered under SureStart Protection. The SureStart Protection period begins on the date of application and terminates as specified for the SureStart Period under the Roof Systems & Warranty Durations section. CertainTeed's maximum liability under SureStart Protection is equal to the reasonable cost of comparable CertainTeed Product and labor, as determined by CertainTeed, to replace or repair the defective Product and bring it to watertight condition. Roof tear-off, metal work, flashing, disposal expenses, and other costs or expenses incurred during such repair or replacement are not covered or reimbursed by CertainTeed. Roof components which are not part of the Product and not covered by this Limited Warranty include, but not limited to, the following non-CertainTeed products: underlying roof deck, insulation, vapor retarders, fasteners, liquid flashing, metal work, drains, pitch pans, expansion joints, skylights, vents, plastic accessories, decorative or reflective coating, surfacing and/or any aggregates.

Beyond SureStart™ Protection

After the SureStart Protection period has expired, if a manufacturing defect in the Product causes a leak, CertainTeed will, at its sole discretion, provide Product for repair or replacement only as necessary to restore the Product to a watertight condition. Only manufacturing defects in the Product that cause leaks are covered by this Limited Warranty. CertainTeed's maximum liability after SureStart Protection is limited to the original cost of the Product used on the roof reduced by 5% for 20-year warranties, 6.67% for 15-year warranties, 8.3% for 12-year warranties and 10% for 10-year warranties during each subsequent year, less any costs previously incurred by CertainTeed for repair or replacements. No labor costs associated with any repair or replacement are covered or reimbursed by this Limited Warranty once the SureStart Protection period has expired. Roof tear-off, metal work, flashing, disposal expenses, and other costs or expenses incurred during such repair or replacement are not covered or reimbursed by CertainTeed. Roof components which are not part of the Product and not covered by this Limited Warranty include, but not limited to, the following non-CertainTeed products: underlying roof deck, insulation, vapor retarders, fasteners, liquid flashing, metal work, drains, pitch pans, expansion joints, skylights, vents, plastic accessories, decorative or reflective coating, surfacing and/or any aggregates.

Roof Maintenance

For specific information on roof maintenance requirements please visit our website at www.certainteed.com.

Unapproved Repairs, Alterations, Additions, or Deletions

All repairs, alterations, additions, or deletions to any aspect of the roof, or any material contiguous thereto, must have prior written approval of CertainTeed's Warranty Services Department (CertainTeed Commercial Building & Infrastructure, Warranty Services Department, 20 Moores Road, Malvern, PA 19355, telephone: 800-396-8134 ext. 2). If owner, without prior written consent of CertainTeed, makes or permits any repairs, alterations, additions, or deletions to the roof, all of CertainTeed's obligations, duties, and coverage under this Limited Warranty will terminate and the Limited Warranty will be voided. Application of a roof membrane that deviates from CertainTeed's published specifications and application instructions voids coverage unless prior written approval is provided by CertainTeed's Warranty Services Department.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, the owner may make essential temporary repairs performed by a CertainTeed credentialed roofer. CertainTeed will only reimburse the owner for essential temporary repair expenses that would have been covered under this Limited Warranty.

What the Customer Must Do

If you believe your Product has a manufacturing defect that is causing a leak, you must notify CertainTeed within 30 days of discovery and provide proof of property ownership and the date of Product purchase and application. In order to properly evaluate and process a warranty claim, CertainTeed may require the property owner to submit a Product sample to CertainTeed for analysis and/or permit a CertainTeed representative to make repairs to, take photographs of, and/or take samples from the roof, if required. The owner shall grant access to the entire roof system as necessary for CertainTeed to investigate a claim. CertainTeed will evaluate each properly reported claim and provide repair or replacement Product, in accordance with the terms of this Limited Warranty within a reasonable amount of time. For more details about submitting a warranty claim, visit ctroof.com or call (800) 345-1145.

Notification to a roofing contractor is not considered notice to CT. This notice of claim must include a general description of the alleged defect and a copy of your Commercial Roof Maintenance Program records. Owner shall grant access to the entire roof system as necessary for CT to investigate a claim, which includes, but is not limited to, the taking of samples that adequately demonstrate the alleged defect for testing by CT as part of the claim investigation. If access is not granted, CT shall have the right to determine, at its sole discretion, that this Limited Warranty is void as to that portion of the roof system to which access is denied. Should the investigation of the defect be determined not to be covered under this Limited Warranty, any costs associated with the claim investigation shall be the Owner's sole responsibility. This Limited Warranty will become void if costs associated with non-warranty findings are not paid in full within thirty (30) days of receipt of any CT invoicing. If it is determined that CT installation procedures have not been followed, or the required materials have not been installed, CT may cancel this Limited Warranty at any time.

NOTE: In the event an emergency condition exists which requires immediate repair to avoid damage to the building or its contents, Owner may make essential temporary repairs performed by a qualified roofer. CT will only reimburse Owner for essential temporary repair expenses that would have been covered under this Limited Warranty.

TRANSFERABILITY

This Limited Warranty is not transferable and terminates if the building is sold or ownership transferred.

THE WARRANTY AND REMEDIES CONTAINED IN THIS DOCUMENT ARE EXPRESSLY IN LIEU OF ANY AND ALL OTHER OBLIGATIONS, GUARANTEES, WARRANTIES, AND REPRESENTATIONS, WHETHER WRITTEN, ORAL, IMPLIED BY STATUTE AT LAW, OR IN EQUITY, INCLUDING WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR USE, AND FITNESS FOR A PARTICULAR PURPOSE. SOME STATES OR JURISDICTIONS MAY NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES OR MAY DETERMINE THE PERIOD OF TIME FOLLOWING THE SALE THAT A PURCHASER MAY SEEK A REMEDY UNDER IMPLIED WARRANTIES, SO THE ABOVE EXCLUSION MAY NOT APPLY TO YOU. CT'S OBLIGATIONS, RESPONSIBILITIES, AND LIABILITY SHALL BE LIMITED TO PROVIDING REPLACEMENT PRODUCT OR REFUNDING THE ORIGINAL COST OF THE DEFECTIVE PRODUCT AS SET FORTH IN THIS LIMITED WARRANTY. MODIFICATIONS OF COVERAGE

Except as noted herein, this Limited Warranty may not be modified, altered, or expanded by anyone, including Product distributors, dealers, sellers, installers, contractors, and/or CT field representatives. Only CT Commercial Building & Infrastructure's Warranty Services Department is authorized to modify coverage provided by this Limited Warranty. Issuance of this Limited Warranty or review or inspection of plans, the building, or Product application by a CT representative does not waive any exclusions or conditions of this Limited Warranty. Application of the Product materials that deviates from CT's Low-Slope Roofing Applicator's Manual voids coverage, unless prior written approval is provided by CT's Warranty Services Department.

EXAMINATION OR INSPECTION

CT does not practice engineering or architecture. Roof inspections made by CT or an authorized agent of CT or issuance of this Limited Warranty does not constitute an approval of the roof, roof design plans or specifications, or construction or installation of the roof. Roof designs, construction plans, or installation of the roof system should be approved by the Owner or the Owner's professional. Any roof inspections performed by CT representatives are solely for the benefit of CT and do not constitute approval, representation, or warranty that the roof meets building code requirements.
